

Directors Notes

As we celebrate 30 years, I decided to produce Anne of Green Gables, which was one of the first big musical productions that we ever did in the playhouse. It is so heartwarming as we reminisce about past productions of the story, and we have been fortunate to have a number of YAG Alumni take part in the program this summer, which has made the journey even sweeter.

Anne of Green Gables has always been a favorite of my families'. It is a story of loss, early childhood trauma, and the power of the human spirit in the face of adversity. Anne's ability to keep her whimsical spirit through it all is inspiring to everyone around her.

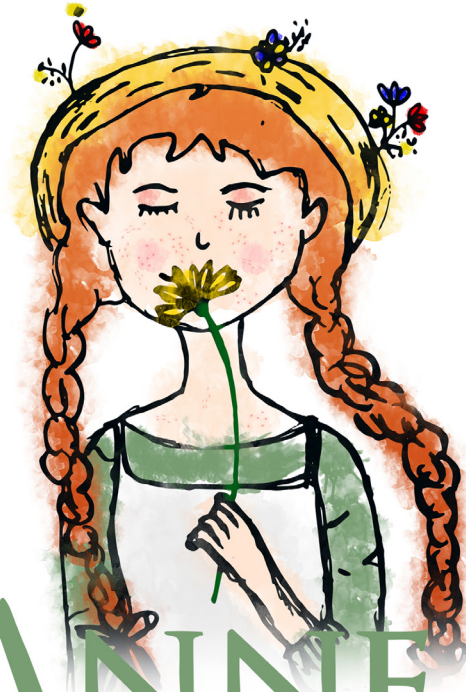

I decided to write an original script because I hoped to capture the depth of the relationships between Marilla, Anne and Mathew. I just love the story and the time period in which it was written.

When I proposed that we write our own musical, my Intern staff was excited, and we had a lot of fun pulling it all together over the past 7 weeks. On a more personal note, writing this musical with Angela, Tess, Isabella and the Intern Crew this summer was a very treasured experience.

I sincerely hope everyone enjoys the show this evening, and that we have caught the essence of Lucy Maud Montgomery's Book. Thank you for supporting the Young Actors Guild. We look forward to 30 more years of amazing students, shows and memories that make this such a special community.
